ELECTRICAL DRAFTER

An opportunity exists to join our electrical team on a major infrastructure project of state significance. The successful applicant will be embedded with PEA colleagues in the site-based project office.

To succeed in this position, you will need;

- Electrical Trade, Diploma, or similar relevant technical qualification necessary.
- Minimum 5 years' experience, preferred in heavy/resources industry.
- AutoCAD experience.
- Sound understanding of electrical circuits and PLCs.
- Sound knowledge of electrical standards.
- Ability to work within a small team.
- Excellent communication skills.
- Eledes Design Suite or database/programming experience an advantage.

This position is offered to current Australian residents as a permanent or contract role with opportunities for Employee Share Ownership and a great working environment.

Only those applicants short listed will be contacted.

Confidential enquiries and further information may be obtained by contacting Peter Harris on 02 42535611
